

“ Best New Tool, Since the One that Slices Bread !”

EDEA Ignition System Tester 100% Australian Designed & Made!

Accurately tests:

Igniters
Coil over Plug
Coil Packs
Conventional Coils
Dis Modules
Ignition Modules
Crank Sensors
Optical Sensors
Hall Sensors
Inductive Sensors
Speed Sensors
Injectors

What sets it apart from similar testers, is the comprehensive instruction manual.

Easy to follow, pictured instructions, take you step by step through all the testing procedures, continually being updated so it never becomes out dated.

Reduces the risk of replacing expensive non faulty parts you can't return.

After numerous trials, we were so impressed with it's ease of use and it's accuracy, Australian Fuel Injection has become the exclusive distributor for the EDEA Tester for Australia. Launched at the AAAA Trade Fair, with live demonstrations, the response was overwhelming. If you would like more information, contact AFI, Ph: (02) 9897 9922, You won't be disappointed.
